

Book now to attend our technology seminar

Innovative Packaging & Converting Solutions

Flat Die & Blown Film for the future of plastics

26th - 27th SEPTEMBER 2017 | BIRMINGHAM

Basic program valid for each day - Everyday both sessions are presented *

Flat die technology session

9:30 / 10:00 AM Welcome & Start of the Seminar

Company	Subject	Speaker
 	Innovative solutions for recycling of PET bottle and PET thermoforms	Dario Previero
	Ancillaries & Systems In extrusion	Cristian Brugnolaro
	Integrated gravimetric blending & extrusion control	Paul Edmondson

11.15 AM Coffee break

	Innovative Technologies for Rigid Packaging Solutions	Gabriele Murano
	IV Enhancer - Impact modifier for A-PET	Tonino Severini
	Updated technologies for silicone coating process on top-quality films	Tobias Schurr

1:00 PM Lunch

Blown film technology session

2:00 / 2:30 PM Welcome & Start of the Seminar

Company	Subject	Speaker
	New performance polyethylene solutions for flexible packaging	Francois Chambon Dirk Van Der Sanden
	Pursuing perfection in blown film cooling	Francesco Facchinetti
	Quality control for sheet & foil plants in the era of industry 4.0	Paul Bullock

3:45 PM Coffee break

	Latest trends in flexible film extrusion for packaging & converting industry	Carlo Pattini
	Film production traceability and industry 4.0	Gabriele Caccia (26.09 only)
	Inline recycling of trims, improve performance and quality, reduced cost	Simon Jay (27.09 only)
	The added value of slitting and roll finishing	Davide Malki

5:30 / 6:00 PM Meeting with Speakers, Networking & Drinks

* 27th September Blown film technology session in the morning, flat die technology session in the afternoon

DEADLINE TO REGISTER

21st September 2017
